## WE GPS EX200

### Web Based Fleet Management & Tracking Software

The EX200 is a web-based GPS tracking software that works with MapInfo mapping solution and many other maps. Support Extremtrac GPS tracking systems as well as most of other GPS/GPRS/SMS tracking devices.

#### General:

1. Tracking GPS device online or using cell phone
2. Support both GSM/SMS and GPRS/TCP/IP based tracking devices
3. Award winning application and scalable and flexible solution
4. Easy International language support and easy deployment to all countries in the world
5. Sensational Google or MapInfo Maps
6. Extremtrac can let you have your own private label/brand for the service and provide customization
7. Track up to 2000 vehicles at the real time or smaller versions

## Featured Programs:

This program provides excellent analysis based on fleet management system, which provided:

- Vehicle data management and playback software
- Sufficient, instant and easy operation
- Easy operation provided flexibility and expansibility

Display and synchronize mode:

- Graphics/Long show
- GPS map show
- Live view and tracking

Databases analyze and search management:

- Database include time and GPS trial history
- Search by keywords such as driver's name/license number/time and event

Software Function

Databases management mode

- GPS trials
- Switch value
- Analog input
- Log

Databases search mode

- License number
- Driver
- Time
- Event

Local search and playback mode

- Date
- Time
- Alarm
- Sensor log

Metadata search and playback mode

- By time
- By event

XYZ axis at G-force inertia sensor

Graph show of switch value (Max 8 users)

Event log mode

List view

## Benefits to you as a GPS service provider:

1. End-to-End Solution provided at minimum cost
  2. Fast reach to un-touched GPS tracking market globally
  3. Great hardware and service income potential
  4. Grow with Extremtrac with more exciting mobile services integrating image/audio/video; and interacting with timesheet and more devices and vehicle sensors.
- It is a great partnership opportunity for opening a GPS tracking service in the region you resides. Now, for the first time ever in the history, personal and vehicle tracking is accessible through out the world by availability of new generation of tracking devices together with Extremtrac award winning tracking application.
